

Jane McPheron

Owatonna, MN • jvmcpheron@gmail.com • LinkedIn: www.linkedin.com/in/jane-mcpheron/

Software Developer with 1 year of professional experience building and maintaining software and web applications and data-driven solutions. Foundations with SQL, Java, JavaScript, and Agile Development.

EXPERIENCE

Federated Insurance

Systems Developer I (Software Development)

Nov 2025 – Present

- Developed and maintained web applications and services supporting business operations
- Collaborated with business partners to gather requirements and implement technical solutions
- Created and optimized SQL queries for data analysis, reporting, and system troubleshooting
- Built and enhanced web applications using OutSystems, including debugging and feature updates
- Deployed application updates using Azure DevOps CI/CD pipelines
- Participated in code reviews to improve code quality and maintainability
- Gained experience maintaining frontend codebases working in HTML, CSS, JavaScript, and React

Associate Systems Developer

Jun 2025 – Nov 2025

- Completed intensive training in Java and object-oriented programming
- Worked in an Agile development environment with iterative delivery cycles

University of Minnesota

Computer Science Teaching Assistant

Jan 2024 – May 2025

- Supported instruction in discrete structures and theoretical computer science
- Helped students understand algorithms, logic, and problem-solving techniques

Computer Science Undergraduate Researcher

Aug 2024 – Dec 2024

- Developed an epistemic logic to represent user beliefs within a social network
 - Wrote a report titled "Developing an Epistemic Logic to Represent Knowledge in Social Networks" and presented research to peers
-

PROJECT HIGHLIGHTS

Hotel Reservation and Management Reactive Web Application (OutSystems)

- Built a fullstack OutSystems web application for hotel management, setting up a backend datastore, services to update and return data, and a frontend interface for users.

Career Search Mobile Application (Flutter/Dart)

- Designed an app that allowed users to log in, view and share relevant job search videos, see career data and trends, set interview alarms, following the Agile framework and using GitHub Projects.

Automated SharePoint Alert System (Power Automate)

- Implemented a Power Automate Alert System that automatically sends out emails to IT and business partners when changes to the SharePoint are made.
-

TECHNICAL SKILLS

Languages: Java, SQL, Python, JavaScript

Web Development Technologies: HTML, CSS, React, OutSystems

Tools: Git, Azure DevOps (ADO), VS Code

Other: Power Automate, REST APIs, data reporting & automation

CERTIFICATIONS

OutSystems Associate Reactive Developer (O11) — April 2026

IBM SkillsBuild Web Development Fundamentals — July 2023

EDUCATION

Bachelor of Science in Computer Science

University of Minnesota Duluth — May 2025

- GPA: 3.9 (Magna Cum Laude)
- Relevant Coursework: Software Engineering, Databases, Machine Learning, AI
- Relevant Languages: Python, C++, Java, Dart/Flutter
